Yoseph Kassa

SENIOR FRONTEND AND MOBILE APP DEVELOPER

Experienced Frontend Developer with a strong background in JavaScript, React, Vue.js, Python, HTML5, CSS3, and Git. Delivered multiple projects with quick turnaround times using React and Vue.js. Eager to master advanced frameworks like React and enhance skills in UI/UX design. Seeking challenging projects to push the limits of web performance, accessibility, and responsive design. Committed to joining an innovative team that values collaboration and continuous learning to grow both professionally and personally. Bringing forth expertise in design, installation, testing and maintenance of web systems.

Experience

OCTOBER 2021 - PRESENT

Freelancer

Senior Frontend Developer

As a Senior Frontend Developer working freelance for various clients, I have amassed extensive experience in developing dynamic and visually appealing websites using cutting-edge technologies. My expertise encompasses a broad range of tools, including HTML5, CSS3, JavaScript, and React.js, as well as several other modern frameworks. This diverse skill set enables me to create engaging web solutions that effectively address the demands of today's digital landscape. Throughout my career, I have leveraged the power of these technologies to deliver innovative and responsive web solutions that not only meet the unique requirements of each client but also enhance the user experience. I stay abreast of the latest trends and best practices in frontend development, ensuring that the websites I design are both aesthetically pleasing and optimized for performance and accessibility. By collaborating closely with clients to understand their vision and goals, I can successfully translate their ideas into functional, user-friendly interfaces, whether developing new projects from scratch or enhancing existing platforms, ultimately providing high-quality solutions that adapt to the evolving needs of clients and users alike.

FEBRUARY 2020 - SEPTEMBER 2022

Freelancer

Automation Developer

As a freelance Automation Developer, I specialize in creating efficient scripts that streamline website development and maintenance tasks for a diverse range of clients. My strong proficiency in Python allows me to develop effective automation solutions that not only enhance website performance but also improve overall functionality. I have successfully completed numerous projects where I utilized Python alongside HTML5 and CSS3 to deliver innovative and responsive web solutions tailored to meet client needs. My work has consistently focused on increasing efficiency, reducing manual effort, and implementing best practices in web development, ultimately contributing to more dynamic and user-friendly online experiences. Whether working on small-scale projects or larger initiatives, I am committed to leveraging my skills to drive results and ensure client satisfaction.

APRIL 2016 - JANUARY 2021

Sales Person

Sket Construction Material Shop

As a Sales Person at Sket Construction Material Shop, I was responsible for providing excellent customer service and promoting products to meet sales targets. I effectively communicated with customers to understand their needs, provided product information, and processed sales transactions efficiently. Additionally, I maintained a clean and organized store environment to enhance the overall shopping experience for customers.
